

Homework Year 3 Autumn 2

Our local area - Colchester

Choose as many of the following tasks as you wish. The examples are only suggestions. If you have a more creative idea to represent the task, that is great.

- **Art task** – Represent a famous or unknown area of Colchester in any of the following ways: Sketching, painting, making a model or labelling a photo.
- **History task** – Make and label a timeline of Colchester and the surrounding area. This could have a particular focus on architecture, people, animals, artefacts or wars.
- **Geography task** – Draw and label a famous feature of Colchester. This could be Castle Park, the Hilly Fields, Colchester Town Centre, a map or a famous building or monument.
- **Music task** – Imagine that Colchester needed an anthem. Conduct and record, by video or audio, an anthem for Colchester.
- **English task** – Research a story based in Colchester. Re-write the story including: inverted commas for speech, a question, interesting adjectives and adverbs and indented paragraphs.
- **Maths task** – If Colchester has the population of 110,000 people, how many times could the whole population fit into Essex and England? Research the two places to begin the maths investigation.

We look forward to sharing and displaying your homework at the end of half term.
