

Homework Year 4 Spring 2

Solar System

Choose as many of the following activities as you wish:

- Art task – Create a replica of the Solar system. You can use any materials you can find e.g. shoe boxes, tissue paper, clay etc.
- History task – research and draw a timeline of important events that have happened in the solar system. (e.g. first man on the moon or dates planets were discovered etc).
- Geography task – create a report about your favourite planet. Use pictures, resources and research from secondary sources to help you.
- Music task – make up a song to help remember the order of the planets. Can you also include links to other objects found in the solar system? (e.g. comets, stars etc)
- English task – Write a descriptive piece of writing about one of the planets. Make sure you include as many of the descriptive devices we have been learning about.
- Maths task – Research the distance each planet is away from the sun and the size of each planet. Put your results into a table. Use your table to answer the following questions:
 - 1) Which planet is the biggest and smallest?
 - 2) Which planet is the closest and furthest away from the sun?
 - 3) Which two planets are closest together?Any other information you have noticed in your table

EXTENSION:

Design your own planet that could be found in the Solar system. What makes it special? Who / what lives there? How would you travel around?

We look forward to sharing and displaying your homework at the end of half term.
