

Homework Year 5 Autumn 2

Iceni Children in Need

Choose as many of the following activities as you wish:

- **Art/DT task** – Design your own merchandise (pencil case/bag/t-shirt/cap) that could be sold to raise money for Children in Need. Label with colours, materials and measurements.

- **Music task** – Compose a short backing track that could be used for a new Children in Need song. If you have an Apple device, we'd recommend downloading 'Garageband' free from the app store. LMMS is another free app available for windows devices.

- **P.E** – Design a circuit of activities that people could pay to take part in, in order to raise money for Children in Need.

- **English task** – Script and film a short documentary/news report which informs your audience about Children in Need.

You may wish to report on the fundraising happening in your local community!

- **Maths task** – Create a 'Children in Need' themed board game that includes the 4 operations (addition, subtraction, division and multiplication).

- **History** – Research the amount of money raised each year since Children in Need began. Present the data in a line graph.

We look forward to sharing and displaying your homework at the end of half term.
