

Homework Year 6 Autumn 2

Lighthouses

Choose as many of the following activities as you wish (or create your own activities):

- History task – research the development of lighthouses over time e.g. this could link to how their construction has changed.
 - Art/DT task – create your own image of a lighthouse in any medium you wish or plan and make your own lighthouse.
 - Geography task – locate and show on a map where lighthouses exist in the United Kingdom – why are they in these locations? Create your own questions you could ask about the lighthouses.
 - Music task – create a piece of music to accompany a ship in danger near the location of a lighthouse.
 - English task – write a text linked to lighthouses e.g a non-chronological report (what headings will you use?) or a narrative. Think about how to engage the reader.
 - Maths task – use any maths you wish and link it to lighthouses e.g. word problems. Be creative devising questions for others to answer.
-
- You can choose to do anything at all that interests you – with a link to lighthouses - how original can you be?
