

## **Welcome to 4N**

Class Teacher: Miss Taylor

Teaching Assistants:

Mrs Gammon

Mrs Jarman

**Our P.E lessons will be Wednesday and Thursday**

**Please see the Curriculum Overview for what we are learning about this term.**

## Update January 2018

Maths: In maths this half term we will be practising and becoming more fluent with our multiplication facts up to  $12 \times 12$ . We will be learning how to use the short method to divide and how our multiplication facts can support us to work out the area of a shape.

English: During our English lessons we will be writing a narrative. We will be using the You tube video 'Pigeon Impossible' as a hook for our narrative writing lessons. We will then be moving onto writing our own non-chronological reports about an animal from the rainforest.

Science: During Science this half term we will be interpreting food chains, describe the functions of a digestive system and then moving onto comparing and grouping materials together based on whether they are a solid, liquid or a gas.

Creative Links: Geography will be our focus for Creative Links. This will involve us conducting fieldwork which will allow us to read ordnance survey maps, gather information from digital images and using these images to build a picture of a place. We will then use all the skills we have learnt to put our own report together.

Other comments: During all of our lessons we will be continuing to develop our independent skills by using our learning powers to support this.
